

**IFHP – November 2014 version**  
 Janet Cleveland [janet.cleveland@mail.mcgill.ca](mailto:janet.cleveland@mail.mcgill.ca)

This table shows only the services covered by the federal government through Medavie Blue Cross. Quebec and Ontario provide complementary coverage for patients with IFHP. Also, GARs and PSRs have access to provincial health insurance and, in many cases, to provincial pharmacare programs.

<b>Status</b>	<b>IFH Type</b>	<b>Medical, diagnostic &amp; hospital services</b>	<b>Medications</b>	<b>Supplemental</b>
Children under 19 (all with IFHP)	1	Full coverage	Full coverage	Coverage
Pregnant women (all with IFHP)	2	Full coverage	Full coverage	
Government Assisted Refugees (GARs)	1	Full coverage	Full coverage	Coverage
Privately sponsored refugees (PSRs) <u>with</u> Resettlement Assistance Program (RAP) support (e.g., BVORs)	1	Full coverage	Full coverage	Coverage
Privately sponsored refugees (PSRs) <u>without</u> RAP support	3	Full coverage	Only for Public Health -Public Safety conditions*	
Refugee claimants (all countries), until acceptance as a refugee OR final rejection of all appeals	3	Full coverage	Only for Public Health-Public Safety conditions*	
Rejected claimants, under deferral of removal	2	Full coverage	Full coverage	
Rejected claimants who are <u>not</u> under deferral of removal – between final rejection of all appeals and deportation date	4	Only for Public Health-Public Safety conditions*	Only for Public Health-Public Safety conditions*	

Note: To simplify the table, some smaller subgroups with IFH coverage are not shown.

\* Public Health-Public Safety conditions: 35 contagious diseases, including tuberculosis, HIV-AIDS, STIs, and vaccine-preventable diseases, and also aggressive psychosis. See IFHP Public Health – Public Safety Benefit Grid, Note 3. Available at: <https://provider.medavie.bluecross.ca/> Click on Benefit Grid, then [IFHP Benefit Grid - Public Health and Public Safety - Effective 01 June 2013](#)

“Full coverage” of medical, diagnostic and hospital services is very similar to provincial health insurance.

“Full coverage” of medications is similar to coverage for social assistance beneficiaries

“Coverage” of supplemental services is similar to coverage for social assistance beneficiaries (e.g., rehabilitation and home care, emergency dental care, eye exams, psychotherapy, prosthetics, etc.)

Countries under deferral of removal for generalized risk are:

Afghanistan, Democratic Republic of Congo, Iraq, Central African Republic, Gaza, Libya, Mali, Nepal, Syria, South Sudan, and Somalia.
